March 15th, 2025

08:30 Meeting with the licensed tour guide at the hotel's lobby.
Pick up at the hotels.

Go across the 25th of April bridge, heading south of Lisbon, and start the full-day tour.

09:30 Visit the Livramento market, in Setúbal, considered by "USA Today" as one of the best fish markets worldwide.

11:00 Visit to **Quinta da Bacalhôa**. The Bacalhôa brand, founded in 1922, has always shown a search for the perfection of its wines. The best of Bacalhôa is part of a policy of product differentiation, simultaneously accompanied by a strong component of innovation, to not only meet but also anticipate and exceed the expectations of those who visit the spaces of this group. This environment of differentiation is clearly seen in the famous Palácio and Quinta da Bacalhôa, in Azeitão, a farm with history dating back to the beginning of the Avis Dynasty.

Wine tasting.

Tour through the **Arrábida Natural Park**. With a wide natural diversity of landscapes and environments favored by the blue and emerald, green sea, this region offers one of the most beautiful Portuguese landscapes. Arrábida is a spectacular landscape, in which human activity has been carefully integrated into the beautiful backdrop of nature.

13:00 Lunch (*restaurante tbc*)

16:30 Visit to **José Maria da Fonseca**. Everything began over six generations ago in 1834, with an act of irreverence and audacity from our founder. For some, it may have seemed like a thoughtless act, but for us in the family it was a visionary's first step. Wine tasting.
